

DIESEL AFTERTREATMENT

Diesel Particulate Filters & Diesel Oxidation Catalysts

PowerEdge Diesel Aftertreatment

Soot is a byproduct of a diesel engine. To trap and retain those emissions, diesel engines use aftertreatment products. PowerEdge™ diesel aftertreatment products meet over 98 percent of the demand for heavy-duty aftermarket diesel particulate filters (DPF) and diesel oxidation catalysts (DOC), Class 8 trucks on the road today. DPFs remove 85 percent of diesel particulate matter (DPM), or soot, from vehicle emissions and capture even higher levels of DPM when combined with the DOC. All PowerEdge part numbers meet strict U.S. Environmental Protection Agency emissions control regulations and are available for purchase and installation in 49 U.S. states and Canada*.

OEM-Style Fit for Quick Installation

To get your equipment back to work quickly, all PowerEdge aftertreatment products fit just like OEM units, meet or exceed OEM emissions requirements, and are fully supported by our field application specialists.

- Exact-fit OEM replacement units come complete with installation gaskets and clamps.
- Stringently tested for durability and OEM functionality.
- Approved for horizontal, vertical and dual installations.
- Nationwide technical / installation support.

Made in the USA

PowerEdge diesel aftermarket products are designed and manufactured in the United States with engineers continually working with field professionals to improve upon OEM designs and advance catalyst technology. PowerEdge products are designed and manufactured to meet the highest quality and durability standards, satisfying the most stringent application demands to keep your equipment running cleaner longer.

*Not available for sale or installation in the State of California or areas where California emissions compliance is required.

Heavy Duty Diesel Particulate Filters & Diesel Oxidation Catalysts

PowerEdge's line of diesel particulate filters and diesel oxidation catalysts combine strengthened designs with upgraded materials.

- High-grade stainless steel canisters improve durability and resist corrosion better than the OEM product.
- Advanced filter coating and substrates reduce active saving you fuel..
- Tested to reduce backpressure and enhance performance.
- Improved thermal stability and efficiency.
- Backed by a three-year/unlimited mileage warranty.

Diesel Aftertreatment Gaskets and Clamps

- Comprehensive offering of exhaust accessories.
- Includes all the necessary brackets and hangers needed to secure and support the exhaust system.
- Gaskets made with premium materials to withstand higher temperatures of today's engines.
- Flanges designed for universal and direct fit applications.
- High quality clamps to properly secure exhaust system components.
- Available separately for reinstallation DPF or DOC after cleaning.

Enhanced Performance Features Extend Service Life

Tough cordierite substrate with advanced catalyst improves DPF durability and efficiency

Higher-grade stainless steel canister improves durability and resists corrosion over OEM units

Application-specific designs and included gaskets and clamps to ensure quick replacement of OEM units
